- OBJECTIVE** Seeking permanent employment in the field of environmental engineering upon graduation
- EDUCATION** **Bachelor of Science in Environmental Systems Engineering** Graduation Date: May 2012  
Minor in Watersheds and Water Resources GPA 3.48/4.00
- The Pennsylvania State University, University Park, PA**
- Completed the Penn State Behrend Honors Program (2 years at Erie campus)
  - Dean's List 4 Semesters
- Relevant Courses: Air Pollutants from Combustion Sources 3 credit hours  
Applied GIS computer course  
Environmental Health and Safety 3 credit hours  
Pollution Control in the Process Industries 3 credit hours
- Extracurricular: Society of Environmental Systems Engineers  
Penn State Behrend Club Lacrosse
- WORK EXPERIENCE**
- Native Trout Conservation Intern** (Yellowstone National Park) May-August 2011
- Participated in lake trout removal efforts and life cycle research to protect the native species of Yellowstone and preserve its pristine ecosystem
  - Electroshocking rivers for spawning cutthroat trout and taking measurements
- Undergraduate Researcher** (Penn State Erie, the Behrend College) May-August 2010
- Conducted an environmental assessment of a stream (Slippery Rock Creek) over a twelve week period
  - Presented poster of findings at the Geological Society of America's Northeast/North Central Meeting (March 2011)
- Churchview Farm Intern** (Pittsburgh, PA) May-August 2010
- Maintained land while learning organic and sustainable farming practices
  - Learned characteristics of a rapidly growing sector of agriculture
- Laborer, Co. Stock Construction** (Pittsburgh, PA) Summers 2006-2010
- Used teamwork to meet specific goals in construction and renovation
  - Budgeted time to meet established project deadlines
- LEADERSHIP EXPERIENCE**
- Outdoor School Counselor** (Shaver's Creek Environmental Center) Oct. 11-15, 2010
- Served as a leader and role model for fifth grade students while teaching elements of environmental stewardship and awareness
- Student Mentor, Family Tyes Fly Fishing Club** (Pittsburgh, PA) 2006-2008
- Taught young students principles of stream ecology, fly fishing and environmental awareness
- INTERESTS**
- Fly fishing**
- I place great importance on experiencing and conserving the natural world in responsible ways, for the benefit of both people and the environment
