WORK EXPERIENCE:

Employed at Kanawha Terrace Super Value in St. Albans for 2 years, started at 16.
Employed at Home Depot in South Charleston, for 1 and 1/2 years. Employed at Brit Tire in Charleston for 7 months as a mechanic, laid off due to poor business. Experienced in sales, great with people. Experienced in over all labor/outside work, digging, mowing, etc. Employed by Enterprise, where I have become experienced in vehicle detail work/washing/prepping of cars before renting to customers. I was involved with chauffeuring customers from one location to another. Currently employed part-time with Mountaineer Measurement L.L.C. (contract business to test and repair all types of measurement and regulation equipment), where I became experienced in gas measurement work, testing meters, building manifolds and small meter sets, etc. Employed by Columbia Gas Transmission for a little over 3 years as a temp roustabout, where I became experienced in greasing valves/blowing drips/pipeline walking/pipeline laws/pipe assembly/cutting and threading pipe/repairing leaks/location maintenance, etc. Employed by Energy Corporation of America where I had been employed since December of 2006 until August of 2011, hired on as a roustabout/moved to well operator, where I took care of pipelines, compressors, and wells throughout Hinton/Sophia/Madison/Whitesville, and have become more experienced in finding and repairing leaks/chart changing and estimating volumes from chart reading/hooks up wells/gauging/greasing valves/blowing drips/thawing frozen lines/replacing meters/overall well operator duties, etc.

EXPERIENCED IN THE FOLLOWING TYPES OF EQUIPMENT:

- Experience in meter testing; orifice testing, spin testing, prover testing.
- Experience in gas piping (placement and assembly)
- Experienced in well operation & overall maintenance.
- Experienced in compressor operation and maintenance.
- Knowledge of SCADA operation.
- Experience in Barton, American gauges..
- Knowledge of the reading UTM maps and TOPO maps.
- Experienced in operation of the forklift machinery.
- Knowledge in the use of heavy equipment operation, construction crews etc.
- Experienced in operation of grinders, rough and smooth.
- Experienced in operating electric/cutting devices.
- Experienced in the use of hardware/hand tools shovels etc.
- Experienced with the operation of lawn tractors.
- Experienced in weed eater operation, chainsaws etc.
- Knowledge in the use of bench press/sheet metal shears.
- I have experience in soldering and torch use.
- Computer literate - Daily use of personal computers..
- Proficient in the driving of cars, trucks, and large vans, atvs.
- Experience Marcellus Shale water transfer.
